Lesson Critique Form

Pre-service teacher: \_\_\_\_\_

Date: 9/9/2016

Subject: Health and Phys Ed

Year Level: \_\_\_\_\_

Mentor Teacher: Claus Kassier

COMMENDATIONS:

Jordan spent a great deal of time preparing his own lesson with his own ideas. He showed good independence and creativity.

The lesson had some good drills in it.

Jordan was calm during the lesson and used his voice and whistle effectively.

The students responded positively to the game situation.

RECOMMENDATIONS:

- More time could have been spent on demonstrations before getting the drill started.
- Some of the boys were a bit loose and he needed to assert his authority more.
- More individual technical help was needed. He needed to move more between the groups and analyse and assist. He was a little quiet.
- He needs to call everyone to order before issuing instructions.

OVERALL IMPRESSIONS:

It was a satisfying lesson and there were many positives. Jordan just needs to assert himself more on the lesson and take more vocal control.
